

My Forest Habitat

Once you have chosen which forest animal you are going to become, it's time to find out lots of information about the animal.

What you need to find out:

1. What animal are you?

.....

2. What type of animal are you?

(e.g. mammal, bird, reptile, amphibian, insect)

.....

3. Where do you live in the forest?

(e.g. in trees, on the ground, near water, under leaves)

.....

4. Why is that habitat right for you?

(Think about what you eat, how you stay safe, and how you move.)

.....

.....

.....

5. An interesting fact!

(Surprise us with something cool!)

.....

.....

.....

When you present:

- Stand proudly with your mask on
- Speak clearly and confidently
- Explain what it's like for you living in the forest
