

Resinous and Leafy Trees

<div>Resinous Trees</div> <div>Also known as coniferous trees, resinous trees typically have needle-like or scale-like leaves, which they keep all year round. They reproduce via cones.</div>	<div>Leafy Trees</div> <div>Also known as deciduous trees, leafy trees lose their leaves in the autumn and winter. They have broad, flat leaves and produce flowers that develop into fruits or nuts.</div>

Cut out the trees and stick them in the right column on your table.
